

FRACTAL[®] COLLECTION

Fractal™ Design Tool

POWERED BY FRACTOOL™

The Fractal Design tool allows you to work with the multi dimensional aspects of Fractal. You can explore variations on a theme as well as colors and settings. Save your designs and review them later. The online design tool will also give you the number of panels required for your project.

Combining different colors and patterns creates unique, dimensional designs. The geometry comes together in lines, shapes and shadows. The face lines of the triangles resolve even when they are not the same size, allowing depth even when using the same pattern and the same color in one creation.

MATERIAL PROPERTIES

DIMENSIONS:	24" x 24" x 34" isosceles triangle
CONSTRUCTION:	3/4" RealCore™ 3-ply bamboo
APPLICATIONS:	Walls, Ceilings, Millwork
ASTM E84 FIRE RATING:	Class C standard (Class B option available, Class A available with strandcore)
ASTM D6007-2: <i>Formaldehyde Concentration in Air from Wood</i>	Plyboo=0.0004ppm (surpasses CARBII standards of 0.05ppm and ULEF standards of 0.04ppm)
PRODUCTS FINISH:	Natural Oil (Colors: Amber, Fog, Mist, Noir, GreigeNoir, Neo, NeoNoir, Greige, FrenchNoir)
ASTM 4442: Moisture Content	6-9% average
SUSTAINABILITY:	LifeCycle Analysis and EPD available
